Spiral Wrapping Band

This spiral wrapping band is perfect for organizing and protecting your wiring and cables. Easily applied to electric harness, cables and wire bundles. The spiral wrapping band not only protects cables from abrasion, but also provide a neat appearance.

Complied with or exceeds Standard

- TIA/EIA 568.C (Optical Fiber Cabling Components Standard).
- ISO/IEC 11801(Generic cabling for customer premises).
- 2011/65/EU(ROHS2.0, Directive on Restriction of Hazardous Substances.).

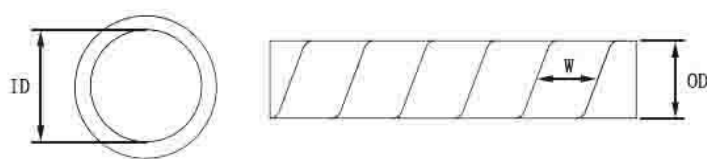

Features

- Bundles cables, wire together efficiently and economically.
- Flexible construction enable bands to follow wire ways easily.
- Keep all your wires tidy with spiral cable binding.
- Durable, reusable with retained spiral strength.
- Expand spiral range with out any limit.
- Excellent protection against mechanical wear.
- Reduces cable and line breakdowns, maintenance and downtime costs.

Specifications

Material	PE
Color	Natural and Black (other colors may be available upon request).
Design	Tube-Shaped flexible spiral tube (spring type)
Usage:	fix one end with cable tie first, then wrap cables/ wires in clockwise direction to tighten.
Temperature Range	-20° C to 60°C
